

Dear Commissioners:

I am a very happy satellite radio subscriber. Like cable or satellite TV, XM Radio offers me a variety of news, music and talk programming. I especially appreciate the weather and traffic reporting when I am in St. Louis, e.g. I look forward to having this feature when we go on a two-week vacation through several major cities this summer.

I pay for these services and it should not be up to the National Association of Broadcasters to decide what I get to hear.

I respectfully urge you to reject the NAB's petition 04-160 and to support XM's ability to provide all of the programming that I signed on to receive and that I and other subscribers want to receive.

Sincerely,

Donnis Grundy
